Laboratory supplies inventory management

Powered by Inventory Manager Technology
AVANTOR’S INVENTORY MANAGER
An efficient inventory management system will provide customers with:

- The supplies you need when and where you want them
- A single solution for all supplies regardless of the supplier
- Minimized inventory investment
- Reduced waste from expiration of materials or obsolescence

To meet these goals, Avantor has developed Inventory Manager.

Our proprietary, cloud-based, global inventory management tool is designed for customers to use to manage the consumption and replenishment of their consumable inventory.

Our system is designed to be Vendor Agnostic, providing customers with a one-stop solution for all their inventory management needs.

FEATURES AND BENEFITS

EASE OF USE

- Cloud based, accessible from any browser
- Sophisticated, modern user interface
  - Customizable dashboard/multiple configuration options
  - Personalized widgets
  - Individual notifications and messages
