

Avantor Clinical Services

# Simplify your clinical trials

**40+**  
YEARS

**EXPERIENCE**  
in clinical trials  
& biorepository  
storage

A scalable approach to optimizing your research and clinical trials

We provide the expertise you need, every step of the way, to allow you to focus on your research and patient outcomes. The global growth of clinical trials has led to an increase in challenges. Your focus is no longer just on managing multiple deadlines, vendors, project managers and CROs. You also must provide a full range of support services and supplies to new geographies and emerging markets, within strict international regulations and tight timelines.

For the preclinical and clinical trial community, Avantor's Clinical Services offers you an experienced team of experts that has a proven track record of excellence and will ensure you have everything you need, from discovery through delivery, allowing you to focus on your research and patient outcomes. We offer:

 **Quality & Choice.** Our extensive suite of clinical trial solutions meets the strictest regulatory and industry standards allowing you to choose solutions that best support your objectives and goals.

 **Expertise.** More than 40 years' experience in clinical trials and biorepository storage, and we offer expertise from clinical trial supply chain specialists to GxP and IATA accredited project managers.

 **Customization.** From custom kit development, flexible archiving infrastructure and a range of commercial models, we have the flexibility to tailor our solutions to your requirements.

 **Convenience.** Avantor Clinical Services' proprietary inventory management technology platforms help simplify and reduce complex global clinical trial processes.

**100%**

of the top 10  
global pharma  
companies  
trust Avantor
