

Commercial kitting and services
Delivered by Therapak

Client Supply

Consolidated kits, bulk supply, requisition printing
and logistics outsourcing management

We are
more than
just kitting

Avantor Commercial kitting and services provides the global expertise, logistical support, and scalable kitting solutions you need from manufacturing and assembly to full tracking and tracing capabilities, enabling you to focus on your lab results, research and patient outcomes.

With over two decades of experience in direct distribution for hundreds of laboratories nationwide in FDA registered cGMP compliant facilities, we offer a full suite of solutions including consolidated kits, bulk supplies, requisition printing and logistics outsourcing management.

OUR CLIENT SUPPLY SERVICES

Avantor's team of experienced professionals, armed with a broad base of thousands of products, works closely with customers to address every aspect of test-specific kit development and other supply inventory management.

PRODUCTION

Having produced hundreds of millions of kits over 20+ years, Avantor is a global leader in regulated kit production across all clinical and commercial disciplines. Our systems are designed to accommodate and control a full range of batch sizes with traceability of lot numbers and expiration dates.

PRINTING

Avantor provides a complete solution for your on demand printing needs, including preparation of customized and site-specific Laboratory Requisition Forms. On demand printing provides customization and flexibility while minimizing waste.

QUALITY ASSURANCE

Avantor's quality system operates in accordance to the United States Food and Drug Administration's current Good Manufacturing Practices for medical devices - 21 CFR § 820.

ORDERING

Avantor's Passport™ Client Supply Express (CSE) Online ordering software intelligently manages the ordering process using Kit-Track ID technology to maintain full visibility of the kit lifecycle. With millions of individual site orders processed, Passport™ offers secure 24/7 global access to customer-specific ordering menus that are user name and password protected.

DISTRIBUTION

Avantor offers a globally harmonized kit production solution from three cGMP compliant and registered facilities strategically located in Los Angeles, Atlanta, and Prague.

FREIGHT MANAGEMENT AND LOGISTICS SERVICES

Avantor provides a complete outsourcing solution for freight management and kit logistics. Customers are able to consolidate outbound and inbound freight management with other service elements. Additionally, Avantor offers customized auditing to ensure your organization is leveraging freight costs and outsourcing non-core activities.

INTELLIGENT SUPPLY MANAGEMENT

Avantor Kit-Track ID and Intelligent Supply Management technology.

ISM allows you to reduce supply costs while increasing service levels to clients. It enables proactive management of client kit inventory to boost kit utilization while automatically replenishing client kit inventory. Additionally, it enables tracking inventory by expiration date to ensure compliant samples.

Every Avantor-assembled kit is tracked:

Each assembled kit has a unique serial number, production lot number and expiration date to enable ease of tracking and tracing.
