Lab and Production Services
Inventory Management

Expanding our Inventory Manager footprint

Research is the engine that drives discovery and innovation. Scientists are most productive when they focus on what they do best—science. Our inventory management services and technology make sure you have the laboratory and production supplies you need. To meet these needs, Avantor has developed a virtual stockroom software, Inventory Manager, and combined it with a vending machine for convenient on-site product distribution and tracking

Device features

– A do not drop robotic elevator and transport belt gently transport the product to the middle dispensing door
– Sensors that recognize maximum dispensing reliability for product entering and exiting
– Customizable units of measure for dispensing
– Touch screen console with up to four product/display units
– Supports lab, safety, MRO, office or janitorial supplies
– Vertically mounted 22" (55,9cm) LDC touch screen
– Dispensing door is 7.75" (19,7cm) height x 22.5" (57,2cm) wide with 9" (22,9cm) depth

Software features

– Activity-based notification and messaging system
– Real-time inventory updates of inventory across all machines
– Automatic reordering
– Full suite of usage and operational reports
– User ID/password-based
– Departmental information tracking per user & per product

Dimensions in inches:
Single: 56 W x 79 H x 35" D
Double: 92 W x 79 H x 35" D
Tripple: 128 W x 79 H x 35" D
Quad: 164 W x 79" H x 35" D

Dimensions in cm:
Single: 142 W x 199 H x 88,4 D
Double: 233,3 W x 199 H x 88,4 D
Tripple: 324,6 W x 199 H x 88,4 D
Quad: 415,9 W x 199 H x 88,4 D

Vending Machine Options

Our vending machine offers a modular approach that offers up to four product/display units combined with an easy-to-use screen console.

– Each dispensing unit contains up to 6 adjustable floors with 9 lanes each
– Each floor/lane is configurable to maximize the product content managed

Other Digital Services available:

– CHEMICAL MANAGER
– EQUIPMENT MANAGER

Vending Machine	Description	Dimensions	Temp Control	Requirements
Single	Single storage area contains 6 adjustable floors with 9 lanes each	56W x 79H x 35"D (142W x 199H x 88,4D, cm) Weight with 6 floors: 88 lbs. (40 kg)	Available with either ambient or refrigerated chamber	Plug direct into power outlet Hardwire access to intranet
Double	Two storage areas. Each containing up to 6 adjustable floors with 9 lanes each	92W x 79H x 35"D, inches, (233,3W x 199H x 88,4D, cm) Refrigerated chambers may add 12 inches in height to the device if both chambers are refrigerated	Available with ambient and refrigerated chambers	Plug direct into power outlet Hardwire access to intranet
Triple	Three storage areas, each containing up to 6 adjustable floors with 9 lanes each	128W x 79H x 35"D, inches, (324,6W x 199H x 88,4D, cm) Refrigerated chambers may add 12 inches in height to the device if both chambers are refrigerated	Available with ambient and refrigerated chambers	Plug direct into power outlet Hardwire access to intranet
Quad	Four storage areas, each containing up to 6 adjustable floors with 9 lanes each	164W x 79H x 35D, inches, (415,9W x 199H x 88,4D, cm) Refrigerated chambers may add 12 inches in height to the device if both chambers are refrigerated	Available with ambient and refrigerated chambers	Plug direct into power outlet Hardwire access to intranet

A cornerstone of Avantor Services value proposition is to simplify stockroom and point-of-use inventory management for lab and procurement managers. One of the ways we do this is by continuing to develop, enhance, and implement new technological solutions, including the vending machine around the globe.

Our team will work with you to customize the Inventory Manager vending machine based on your needs.

Connectivity

Inventory Manager is a cloud-based solution that is deployed on our Inventory Manager vending machine. This machine requires ahard-wired, fixed access to the site's internet that does not require sign-on or a password.
